"If you cannot do great things,  
do small things in a great way."

-

Napoleon Hill

Strong legacy leaves the imprints of unshakable values, undeterred courage to chase the dreams and unbending resolve to fulfill them. Same holds the true for Lemit Papers which is a dream child of L Group of Companies having a respectable presence in other business sectors. As a young enterprise, Lemit Papers exhibit fiery passion and a legacy of wisdom. With Reflecting the same visionary approach and domineering spirit of the group, Lemit Papers; established in the year 2021 is already showing the pioneering streak in the paper industry with its innovative solutions backed by the latest advancements. Based at Morbi, Gujarat, in a very short span, since its foundation, Lemit Papers has become the 2nd largest operational paper mill in Gujarat, having world-class infrastructure. Strongly adhering to its pledge of achieving sustainable growth by preserving nature, Lemit Products are made with recycled papers yet show excellent quality features. The Grey Back & White Back Duplex Paper Boards solutions by Lemit papers are the shiniest examples of what one can achieve through an uncompromised attitude towards perfection and quality.

## MR. JAYESH PATEL

For the ever-changing demands of the customers around the world, we vow to re-invent our identity through innovations and avant-garde solutions.

## *Coated White Back Duplex Board*

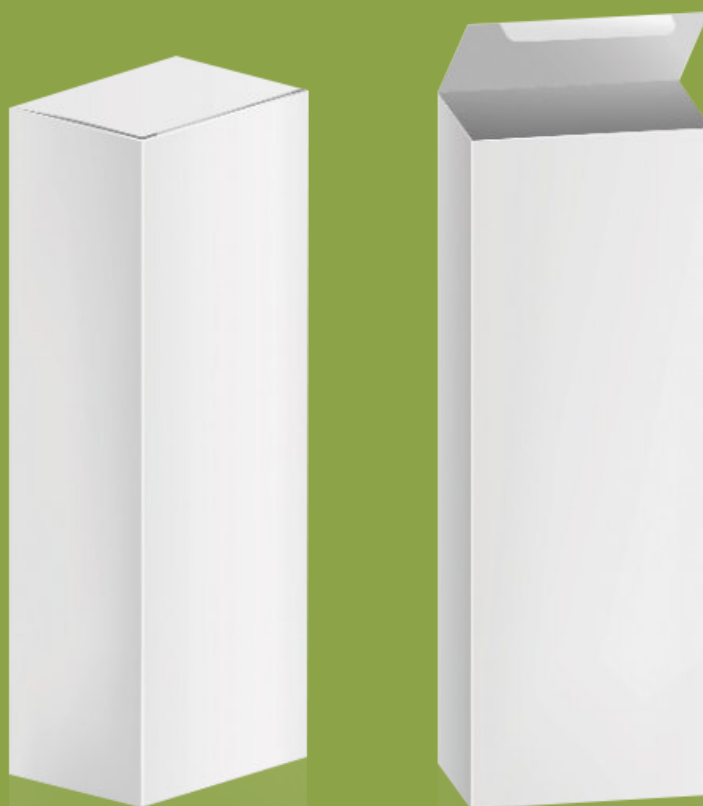

The outer and internal layers of White Back Duplex Boards are both white. Our White Back Duplex Boards have a glossy finish and are coated with bright white pigments, which improves print quality. We use 100% recycled paper pulp for our product, however, the quality is not compromised at any stage. Our duplex paperboards have a unique 8 level composition and a uniform coating is ensured for premium quality and its applications include – pharmaceuticals, apparel, Match Box, Liquid Packaging, Food Packaging, Cards, various other Packaging applications.

## *Coated Grey Back Duplex Board*

White outer and grey internal layers are used to make Coated Grey Back Duplex Board Paper. It has a glossy finish that is enhanced by the use of vivid pulp pigments. This characteristic also allows for higher print quality. Our coated Grey Back Duplex Board has calendared exteriors, resulting in a white, smooth surface suitable for offset printing and a coated grey textured inside. Our product is made entirely of recycled paper pulp, yet the quality is not compromised at any point. Pharmaceutical, Apparels, Match Box, Liquid Packaging, Food Packaging, Cards, & numerous other Packaging applications are among the applications for our duplex paper boards, which feature a unique 8 level composition and a consistent coating for premium quality.

From the day we have commenced our operations, we are delivering satisfaction with smiles to our esteemed customers through our global network, streamlined supply processes on time and ensured perfection. And these shining facts make us a legit brand that our client believes in.

# Green Initiative

## ECO FRIENDLY | GO GREEN

LEMIT PAPERS has developed environment friendly approach to achieve goal of turning waste into wealth. We manufacture high quality Duplex Board paper for packaging industry and use waste paper scrap as a raw material. In addition, our company has invested heavily in cutting edge European Technology and have upgraded facility to reduce environmental impact of our manufacturing discharge. We've always taken pride in ourselves for being 100% recyclers wheather it is paper or water used in manufacturing. We are manufacturing all of our product out of waste paper and reducing carbon footprint on our planet.

### REDUCE

Our Coated Duplex Board paper mill & manpower adhere to procedures and mechanisms that decrease paper waste to the utmost degrees.

### REUSE

Our Coated Duplex Board paper mill & manpower adhere to procedures and mechanisms that decrease paper waste to the utmost degrees.

### RECYCLE

The focus of our Duplex board is entirely towards reuse and recycling environmental raw material and give it an extra life span.
